then scan this to upload the data

End Physical Inventory

When completely DONE with PI,
sets gun up for normal POS use

SymCode Scan Sheet

If you wish to count more than 1 of an item, you can do so by using this sheet.

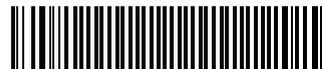

1. Scan numbers below to indicate the quantity. (ex. For 12, scan 1, then 2)
2. Scan the item barcode.

- ** If quantity is not entered, it will default to a count of 1.
- ** When entering Quantity, it must be entered BEFORE the item is scanned.
- ** Scan {CLEAR} if you make a mistake and want to clear the count entered.
